PROFILE SUMMARY

UI/UX Designer and Frontend Developer with 2+ years of experience designing and building scalable, user-centered digital products. Proven track record of improving engagement and conversion rate through research-driven design, usability optimization, and iterative experimentation. Strong in interaction design, design systems, and high-fidelity prototyping using Figma, with the technical depth to translate design into performant production code. Known for aligning design decisions with product metrics and shipping polished experiences at speed.

WORK EXPERIENCE

ExpertLancing Research Services

Associate Frontend Developer

Feb 2024 – Present

- Redesigned & launched corporate website, improving accessibility & responsiveness → led to 25% increase in client inquiries.
- Partnered with product & engineering to ship new features → drove 30% uplift in platform engagement.
- Established Figma-based design system, cutting page development time by 35% and enabling faster releases.
- Conducted usability testing & iterated on feedback → improved user retention and client satisfaction.
- Got recognized with 4 internal awards and accolades for initiative, design excellence, and consistent performance.

PROJECTS

Chemora - Chemical Research Platform

- Developed a research platform that helps the user to identify harmful and banned chemicals using data mapped to multiple global regulatory frameworks and recommend safer alternatives.
- Designed interactive data visualization features to simplify compliance analysis and support faster regulatory and risk assessment.
- Implemented benchmarking and comparison tools to evaluate chemical safety and performance across industry standards.
- Improved user workflow efficiency and platform usability through feature-driven UX enhancements.

ExpertShare – Project Management Platform

- Built an internal-client collaboration platform that improved project tracking and transparency.
- Implemented file upload, sharing, and automated tracking features, reducing client request resolution time by 25%.
- Delivered an intuitive, mobile-responsive interface, increasing client adoption and enhancing overall user experience.

SKILLS

Languages	JavaScript (ES6+)
Frontend	React.js, HTML5, CSS3, Tailwind CSS
Design & Tools	Figma, Adobe XD, Illustrator, Framer, Photoshop
Version Control	Git/GitHub

EDUCATION

Bachelor of Technology (CSE)

Dronacharya College of Engineering

2020 – 2024

CGPA: 7.0
